

PUBLIC SECTOR | SERVICES OVERVIEW

GOVERNMENT STAFFING AND TECHNICAL SOLUTIONS

TECKpert is a minority-owned, small business designated, tech consulting business providing staff augmentation solutions to supplement or build technical teams. Our company's founding in 2009 was born from delivering technology to major departments of our nation's government. We have expertise in adapting cutting edge technology to help protect and serve our country.

CORE COMPETENCIES

Web & Software Development

Our process is agile, scalable, and 100% tested. We have experience across a wide array of technologies and have built hundreds of applications using web technologies and programming languages. TECKpert works with both back-end and front-end technologies, working through the entire stack of technologies when building an application.

Data Science & Analytics

Understanding big data and advanced analytics is key to our future. By combining our design and engineering experience, we are able to solve the data challenges our clients face through their digital transformation journey.

Design & Creative

Creating your digital footprint involves structure, data and understanding your audience's behavior. We take that information and create effective and cutting-edge designs that capture and engage your audience.

Marketing

With creativity, content, data and tech, we put the customer experience as the focus across multiple channels - bringing your message to all citizens. Execute your strategy through content, experiential marketing, automation, and social engagement.

IT & Cloud

Our IT experts are focused on reliability, security and results. They transform systems and deliver the support necessary to achieve organizational goals.

Mobile Development

iOS and Android developers at TECKpert have experience building mobile applications using the latest technologies and incorporating modern design trends.
